

Please leave the wisconsin no call list as it is. If banks or other businesses want to be able to talk to consumers they should make their own phone systems available with live operators instead of automated systems that do not allow access to their business. If we can't contact them during regular business hours why do they expect us to allow them to call us in the evening? The public should be able to limit access to their phones. If they call on cell phones it could cost people money also. Make no changes please. Thank you.
